Will the Giants Be Tied for First Place with Detroit?

New York

[SPECIAL TO THE EVENING WORLD.]
POLO GROUNDS, July 27.—There wasn't a very large crowd at the Polo Grounds to-day, though, considering the threatening weather, the attend-

ance was good. His Majesty the Mascot, after putting himself and uniform outside a bologna sausage and glass of soda water, purchased at a 10-cent lunch counter, before an admiring crowd, stalked into the grounds, nodded how-d'ye-do to Mr. Mutrie and took up his position upon the bench. His freshness is likely to cost him his position.

Ewing, who is suffering a little from a swollen

leg, thought the weather a little dampish to risk playing, as a slight cold in his present condition night result in a long illness. Brown was therefore substituted as catcher, and Crane, the speed ottcher, took Keefe's place in the box and was placed at the head of the Giants' batting list.

Buffinton, who has proved more effective agains the Giants than any other pitcher of the League, was down to win if possible for the visitors. Bas-tian took Delehanty's place at second.

If Chicago beats Detroit and New York defeats
the Phillies to-day, the Glants will be tied with the
champions of last year for first place; therefore
the Western game is watched with much interest.
When the game opened the weather gave prom-ise of fairness, and 2,000 spectators were present.

How the Clever Englishman Trains at Marlboro, Mass.

IMPECIAL TO THE EVENING WORLD. I
MARLBORO, MASS., July 27. —THE EVENING WORLD correspondent to-day, by special permission of Frank Murpby's trainer, paid a visit to the young English light-weight who is in training here for his coming battle with Jack Havlin for the champion-

The sporting fraternity of Boston, and, in fact, all over the country, are well informed as to Johnny Havlin's condition. He has been seen repeatedly in the streets of Boston with Tom O'Rourke, and one could see at a glance that the little Northender is in excellent frim. He is, as his friends claim, fit to fight for a kingdom. With this knowledge in their possession, Havlin's friends many shrewd and admitted experts among the fancy who are not carried away with all this en-

To intimate friends they have no hesitation in declaring that Frank Murphy, the English cham-pion, is a phenomenal publist, and the stories as to his science, pluck and general ability in the ring are not at all exargerated.

These people have been waiting to put their money on Murphy, but have held off for the pur-pose of ascertaining how the Englishman is train-ing.

JOHNNY HAVLIN.

All information respecting this has been kept rather quiet by those having him in charge. The Evenino World, therefore, is the first paper to give definite information.

"If we knew Murphy was right we'd go our pile on him," said one of the party of four Wednesday evening whose opinions are much thought of.

Finding that news respecting Murphy was much valued, This Evenino World correspondent took a quiet trip to this fown. By reason of a glegram sent before starting, the writer was not by Harry Phillips, who has settled down as a hotel-keeper here. They were not long in reaching the Windsor House, and were just in time to catch Murphy and John Kendrick, the famous English middlewight, as they were about to take their after-tea with ity invitation, Phillips and the writer accompanied the pair, out in a buggy.

They were not on walking at a gait that would do pustice to a professional pedestrian. Mur; hy seemed to go better with every step he took, and covered the ground with less trouble than his companion. After going four miles the return home began, and when within half a mile of the hotel the men broke into a slow run, which was kept up until the hotel was reached. Here they was the place Sullivan trained for his battle with Mitchell. On entering the room Murphy was handed a cup of liquid with which he carefully and warmly clothed. When stripped the men got at him with Turkish towels and began to undershim, it was observed that he was carefully and warmly clothed. When stripped the men got at him with Turkish towels and began course of rubbing. This was continued for at least half an hour, by wales time Murphy's system was thoroughly cooled out. A solution of whiskey and witch-hazel was then time Murphy's system was thoroughly cooled out. A solution of whiskey and witch-hazel was then applied by hand. This took about fifteen minutes more. When the labor was ended, Kendrick told Murphy that he might dress himself.

PRANK MURPHY.

Those who had seen the rosy-cheeked and chubuy-faced Englishman of a year ago could hardly recognize the same man to-lay. He has undergote a complete transformation, it is no exageration that there are not two cances of superfluous fiesh on Marphy. He has become thoroughly hardened from head to toe, and the skin on his face is like drawn perchaent. His muscles stick out prominently in great knots, and he is in every respect a perfect picture of a young Hercules.
